

# SINGLE VINEYARD

## EL CARMEN - DURAZNO

---

After 15 years of research searching for the best vineyard cultivation soil, Familia Deicas found genuine identity in the micro terroir of Single Vineyard El Carmen. Different varieties grown from a single terroir combine, achieving the best expression of each region

---

The temperate to warm climate coupled with the mild maturation temperatures of this terroir favors the ideal ripening of late varieties such as Cabernet Sauvignon. Likewise, moderate water stress during the ripening period limits vegetative development and creates wines that are voluminous with soft tannins.

### VINTAGE

2013

### VARIETIES

Cabernet Sauvignon, Marselán

### SERVICE

Entre 16 °C y 20 °C.
