

ATLÁNTICO SUR

SAUVIGNON BLANC

A line featuring the ocean and the sea's signature on Uruguayan vineyards. Each wine is the result of selected single varietal grapes from Uruguay's varied coastal vineyards. Whether from the Atlantic Ocean or the River Plate Estuary, the grape typically grows in vineyards less than 30 km from the coast, thus benefiting from its influence. The Atlántico Sur wines show the varietal as it is shaped by maritime saline freshness. This concurrence births pure, refreshing and alluring wines. Atlantic Wines of Uruguay.

A COASTAL RIPENING

Atlántico Sur Reserve Sauvignon Blanc is made from grapes that grow only in coastal areas: Maldonado, Canelones and San José. A very high aromatic intensity can be achieved at these vineyards, characterized by citrus and tropical aromas. These aromatic compounds are very delicate, easily altered by heat or sun. The presence of the ocean or the sea in this situation curbs summer temperatures, protecting these aromas. The vineyards are also not defoliated which protects the grapes from the sun and contributes to achieving this special aromatic intensity. The grapes are harvested in the early hours of the day, after ensuring the aromas have reached their maximum intensity.

A PRODUCTION PROCESS ADAPTED TO THE VARIETAL

After harvest, the Sauvignon Blanc grapes are pressed very gently. Only 50% of the highest quality of the must obtained is used to make Atlántico Sur Reserve Sauvignon Blanc. After an intense clarification leaving a pure and bright juice, fermentation takes place in a stainless steel tank at temperatures of 14 to 17°C (57 - 63°F) to maintain the citrus and tropical aromas.

A PURE AND FRESH EXPRESSION OF EACH VARIETAL

Atlántico Sur Reserve Sauvignon Blanc is pale in color with greenish hues. The elegance and intensity of its nose are reminiscent of New Zealand Sauvignon Blancs: grapefruit peel, lemon, kumquat, passion fruit and filigree mineral freshness.

This wine is savory, vibrant, elegant, and flavorful on the palate, culminating in a fresh, mineral finish.
